2007 Nationwide Permits
Public Notice No.

March 15, 2007
Public Notice Date

PURPOSE

The purpose of this public notice is to inform you of a proposal for work in which you might be interested and to solicit your comments and information to better enable us to make a reasonable decision on factors affecting the public interest.

SECTION 10

The U.S. Army Corps of Engineers is directed by Congress through Section 10 of the Rivers and Harbors Act of 1899 (33 USC 403) to regulate all work or structures in or affecting the course, condition, or capacity of navigable waters of the United States. The intent of this law is to protect the navigable capacity of waters important to interstate commerce.

SECTION 404

The U.S. Army Corps of Engineers is directed by Congress through Section 404 of the Clean Water Act (33 USC 1344) to regulate the discharges of dredged and fill material into all waters of the United States. These waters include lakes, rivers, streams, mudflats, sandflats, wetlands, sloughs, prairie potholes, wet meadows, playa lakes, and other natural ponds. The intent of the law is to protect these waters from the indiscriminate discharge of material capable of causing pollution and to restore and maintain their chemical, physical, and biological integrity.

NOTICE TO PUBLISHERS

This public notice has been provided as a public service and may be reprinted at your discretion. However, any cost incurred as a result of reprinting or further distribution shall not be a basis for claim against the Government.

**PUBLIC NOTICE FOR FEDERAL REGISTER NOTICE
ANNOUNCING NEW NATIONWIDE PERMITS**

On March 12, 2007, in Part II of the *Federal Register* (72 FR 11092), the U.S. Army Corps of Engineers (Corps) announced the reissuance of all existing Nationwide Permits (NWP), general conditions, and definitions with some modifications. The Corps is also issued six new NWPs, two new general conditions, and 13 new definitions. The NWPs will be effective on March 19, 2007.

After the publication of this *Federal Register* notice, Corps districts will begin finalizing their regional conditions for the new and reissued NWPs. Regional conditions will provide additional protection for the aquatic environment, by ensuring that the NWPs authorize only those activities with minimal adverse effects on the aquatic environment. Regional conditions will help ensure protection of high value waters within the District.

The publication of this *Federal Register* notice also begins the 60-day period for states, Indian Tribes, and the Environmental Protection Agency (EPA) to complete their water quality certification (WQC) process for the NWPs. This *Federal Register* notice also provides a 60-day period for coastal states to complete their Coastal Zone Management Act (CZMA) consistency determination processes. This 60-day period will end on May 11, 2007.

While the states, Indian Tribes, and EPA complete their WQC processes, the use of an NWP to authorize a discharge into waters of the United States is contingent upon obtaining individual water quality certification or a case-specific WQC waiver.

The March 12, 2007, *Federal Register* notice is available for viewing at the Tulsa District, Corps of Engineers, Regulatory Office, 1645 South 101st East Avenue
Tulsa, Oklahoma 74128-4306 or on the Internet at

http://www.usace.army.mil/cw/cecwo/reg/nwp/nwp_2007_final.pdf .

As an alternate, World Wide Web users can access the *Federal Register* through the U.S. Government Printing Office at <http://www.gpoaccess.gov/fr/index.html> .

The Corps has also issued final decision documents for the new and reissued NWPs. These documents are also available on the Internet at

http://www.usace.army.mil/cw/cecwo/reg/nwp/nwp_final.htm and Corps district offices.

Furthermore, the NWP decision documents will be supplemented by Division Engineers to address decisions concerning regional conditioning of the NWPs.

An Index of the Nationwide Permits, Conditions, and Definitions follow:

Nationwide Permits

1. Aids to Navigation
2. Structures in Artificial Canals
3. Maintenance
4. Fish and Wildlife Harvesting, Enhancement, and Attraction Devices and Activities
5. Scientific Measurement Devices
6. Survey Activities
7. Outfall Structures and Associated Intake Structures
8. Oil and Gas Structures on the Outer Continental Shelf
9. Structures in Fleeting and Anchorage Areas
10. Mooring Buoys
11. Temporary Recreational Structures
12. Utility Line Activities
13. Bank Stabilization
14. Linear Transportation Projects
15. U.S. Coast Guard Approved Bridges
16. Return Water From Upland Contained Disposal Areas
17. Hydropower Projects
18. Minor Discharges
19. Minor Dredging
20. Oil Spill Cleanup
21. Surface Coal Mining Operations
22. Removal of Vessels
23. Approved Categorical Exclusions
24. Indian Tribe or State Administered Section 404 Programs
25. Structural Discharges
26. [Reserved]
27. Aquatic Habitat Restoration, Establishment, and Enhancement Activities
28. Modifications of Existing Marinas
29. Residential Developments
30. Moist Soil Management for Wildlife
31. Maintenance of Existing Flood Control Facilities
32. Completed Enforcement Actions
33. Temporary Construction, Access, and Dewatering
34. Cranberry Production Activities
35. Maintenance Dredging of Existing Basins
36. Boat Ramps
37. Emergency Watershed Protection and Rehabilitation
38. Cleanup of Hazardous and Toxic Waste
39. Commercial and Institutional Developments
40. Agricultural Activities
41. Reshaping Existing Drainage Ditches
42. Recreational Facilities
43. Stormwater Management Facilities
44. Mining Activities
45. Repair of Uplands Damaged by Discrete Events
46. Discharges in Ditches
47. Pipeline Safety Program Designated Time Sensitive Inspections and Repairs
48. Existing Commercial Shellfish Aquaculture Activities
49. Coal Remining Activities
50. Underground Coal Mining Activities

Nationwide Permit General Conditions

1. Navigation
2. Aquatic Life Movements
3. Spawning Areas
4. Migratory Bird Breeding Areas
5. Shellfish Beds
6. Suitable Material
7. Water Supply Intakes
8. Adverse Effects from Impoundments
9. Management of Water Flows
10. Fills Within 100-Year Floodplains
11. Equipment
12. Soil Erosion and Sediment Controls
13. Removal of Temporary Fills
14. Proper Maintenance
15. Wild and Scenic Rivers
16. Tribal Rights
17. Endangered Species
18. Historic Properties
19. Designated Critical Resource Waters
20. Mitigation
21. Water Quality
22. Coastal Zone Management
23. Regional and Case-by-Case Conditions
24. Use of Multiple Nationwide Permits
25. Transfer of Nationwide Permit Verifications
26. Compliance Certification
27. Pre-Construction Notification
28. Single and Complete Project

Nationwide Permit Definitions

Best management practices (BMPs)
Compensatory mitigation
Currently serviceable
Discharge
Enhancement
Ephemeral stream
Establishment (creation)
Historic property
Independent utility
Intermittent stream
Loss of waters of the United States
Non-tidal wetland
Open water
Ordinary high water mark
Perennial stream
Practicable
Pre-construction notification
Preservation
Re-establishment
Rehabilitation
Restoration
Riffle and pool complex
Riparian areas
Shellfish seeding
Single and complete project
Stormwater management
Stormwater management facilities
Stream bed
Stream channelization
Structure
Tidal wetland
Vegetated shallows
Waterbody
