LEASE PROPERTY:

- a. Detailed maps of the lease areas may be obtained from the John Redmond Dam & Reservoir Office during normal business hours.
- b. The description of the property and the map are believed to be correct, but any error or omission in the description of the property or on the map shall not constitute any ground or reason for nonperformance of the provisions and conditions of the lease or claim by the lessee for any refund or deduction from rental.

INSTRUCTIONS TO RESPONDENTS

- 1. OFFERS SUBJECT TO THESE TERMS.** All offers submitted shall be deemed to have been made with full knowledge of all the terms herein contained. Respondents are expected to inspect the property and form their own conclusions as to its suitability for the stated purposes. Failure to make such inspection will not constitute grounds for any claim for adjustment or for the withdrawal of the offer after the time of opening offers. The property is now subject to inspection by prospective respondents. The Government makes no guaranty or warranty, either expressed or implied, with respect to the property.
- 2. OFFER FORMAT.** Offers **must** be submitted in the attached format, which is provided, on pages **10 thru 14**. (*Page 11 must be submitted if you are submitting as a corporate entity. Page 12 must be submitted if you are submitting your offer as a governmental entity. Page 13 must be submitted if you are submitting your offer as a partnership.*) **For the offer to be valid, a complete Request for Grantee Social Security Number and/or Taxpayer ID Number form on page 14 must be included with your offer.** The Corps of Engineers requires each person doing business with the agency to furnish such person's taxpayer identification number. This information is mandatory under the Debt Collection Improvement Act of 1996, Public Law 104-134, April 26, 1996, 110 Stat 1321-358. The agency intent is to use such number for purpose of collecting and reporting on any delinquent amounts arising out of such person's relationship with the Government. **Failure to provide accurate information may result in your lease request being denied.**
- 3. EXECUTION OF OFFERS.** Each offer must give the full address of the responder and be signed with the responder's usual signature. Any additional sheets shall be identified with the responder's name. An offer executed by an agent on behalf of the responder shall be accompanied by an authenticated copy of the power of attorney, or other evidence of authority. If the responder is a corporation, the Certificate of Corporate Responder must be executed. If the offer is signed by the secretary of the corporation, the Certificate must be executed by another officer of the corporation. In lieu of the Certificate, records of the corporation which show the authority of the officer signing, and which the secretary or assistant secretary, under the corporate seal, certifies to be true copies, must be attached.
- 4. DEPOSIT REQUIRED.** No offer will be considered without a deposit approximately equal to and not less than twenty-five percent (25%) of the annual rental offered, to guarantee that the responder will enter into a written lease and pay the balance of the rental due within thirty (30) days after receipt of written notice of acceptance of his/her offer and a draft of lease for execution. Such guarantee must be in the form of a money order or check, payable to the "FAO USAED, TULSA". The deposits of unsuccessful responders will be returned, as promptly as possible, after rejection. However, in the event of default by any responder, that responder's deposit may be applied by the Government to any Government loss, cost and expense occasioned thereby, including any incurred in leasing the property and any difference between the rental for another lease, if the latter amount is less. The responder is liable for the full amount of damages sustained by the Government because of his/her default; such liability is not limited to the amount of the responder's deposit.
- 5. SUBMISSION OF OFFERS.** It will be the duty of each responder to have the offer delivered by the time and at the place prescribed in the Notice of Availability for Leasing. Offers will be securely kept, unopened. No responsibility will attach for the premature opening of an offer not properly addressed and identified.

6. **LATE OFFERS, MODIFICATION OR WITHDRAWAL OF OFFERS.** The person whose duty it is to open the offers will decide when withdrawals of an offer will be considered. Offers may be modified or withdrawn only by written requests received from respondents prior to the time fixed for opening. Negligence in preparing the offer confers no right to withdraw the offer after it has been opened. Offers, modifications, or withdrawals received after the time fixed for opening and before award is made will be considered if sent by registered mail not later than the 7th calendar day prior to the date specified for receipt of offers or if sent by mail and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation.

7. **OPENING OF OFFERS.** At the time fixed for the opening, offer contents will be made public. Any information submitted in support of the offer will, upon request, be held in strict confidence by the United States, if disclosure might tend to subject the responder to a competitive business disadvantage.

8. **AWARD OF LEASE.** Leases will be awarded to the highest and/or best responder who is responsive to this Notice of Availability for Leasing, provided that the responder is responsible, the responder is reasonable, and it is in the interest of the United States to accept it.

9. **PROCEDURE FOR AWARD.**

a. Following the opening, the Government may require any responder to furnish additional evidence of financial condition, ability to assume the obligations and responsibilities imposed by the lease, and other information the Government considers desirable. Failure to submit this information in 30 days or such other reasonable time as the Real Estate Contracting Officer specifies may be the basis for rejecting the offer.

b. The lease will be awarded to the responder who offers the highest and/or best fixed annual rental and whom the Real Estate Contracting Officer determines to be fully qualified financially, by experience, character and otherwise to furnish the facilities and services determined to be necessary to adequately serve the public demand at the proposed site.

10. **ACCEPTANCE OF OFFERS.** All offers will remain open for acceptance or rejection for 30 days from the date of opening. Notice of award will be given as soon as practicable to the successful responder personally, to a duly authorized representative, or in writing to the responder at the address indicated in the offer.

11. **REJECTION OF OFFERS.** The right is reserved, as the interests of the Government may require, to reject at any time any and all offers, to waive any informality in offers received, and to accept or reject any items of any offer unless such offer is qualified by specific limitation.

12. **DEFAULT.** In the event that the successful responder fails to enter into a lease within thirty (30) days after receipt of Government notification that his/her offer has been accepted and receipt of a draft lease for execution, or in the event that the successful responder fails to otherwise comply with the terms of this Notice of Leasing, the Government may declare the responder in default and retain the deposit as liquidated damages.

**JOHN REDMOND DAM AND RESEVIOR
LAND USE REGULATIONS
HAY HARVESTING PURPOSES**

General

It is understood that the agricultural lease is being used to further wildlife benefits and restore native grass prairie tracts on the project land. The requested agricultural practices and conditions may differ from those common to the private sector.

Hay Production

Hay production shall be conducted so as to not endanger the vegetative stand nor seriously deplete the carbohydrate root reserve, soil nutrients, or organic matter layer.

Cutting of warm season grasses will not commence prior to 01 July nor continue past 31 July. Warm season grasses are limited to one (1) cutting per year. Cutting and hay removal shall be timed to minimize soil disturbance in case of wet weather conditions. All cut and baled hay must be removed from government property no later than 21 August.

Hay shall not be stacked or stored on the lease area. All cut and/or windrowed grass will be promptly baled and all bales (including broken bales) shall be removed from Government property within 21 days after baling. All equipment shall be removed from the lease area immediately after baling.

Hay bales may be temporarily stacked or stored on the lease area for a maximum of 21 days as long as bales are stacked or stored only on cultivated fields or other areas designated and approved by the lake manager or their representative. Bales may not be stored on native grass, in or on trees and shrubs, or on lands designated as wildlife lands, cultivated weed strips, or habitat/wildflower areas.

During hay harvesting operations a residual height of four (4) inches must be maintained.

Grazing will not be allowed on the lease areas.

Any deviation from the above requirements requires the advance written approval of the Lake Manager or their designated representative.

Herbicide Spraying and Woody Vegetation Removal in Lieu of Lease Fees

The lessee has the option to apply herbicide or use mechanical methods for the control of noxious weeds and woody vegetation removal in lieu of paying lease fees on the lease area. Rental offset proposals shall be submitted to the Lake Manager or their designated representative a minimum of two (2) months prior to the upcoming years lease payment due date.

All chemicals shall be approved prior to use. Herbicides shall not be stored on Government property. Cleaning of herbicide containers and decontamination procedures shall be performed off Government property.

Herbicide containers shall be disposed of off Government property in a State-approved landfill. Location(s) of the refuse disposal site shall be provided to the Lake Manager or their designated representative.

An indicator shall be mixed with all chemicals to show the areas where chemical has been applied.

Material Safety Data Sheets (MSDS) shall be provided to the Lake Manager or their designated representative for each type of herbicide used.

The Lake Manager or their designated representative shall be notified at least 24 hours in advance of the time and location that herbicide applications will be made.

All herbicide applications shall be made in accordance with the herbicide manufacturer's recommendations and all applicable Federal, State, and local regulations.

An herbicide application report shall be submitted after each application. The Lessee will provide a report form, Pest Control Data, ENG Form 4768-R. If a different report format is used, it shall contain at least the information shown on ENG Form 4768-R. The report is due within ten (10) days of herbicide application.

All herbicide application costs are the sole responsibility of the lessee.

Mechanical removal of woody vegetation must be approved by the Lake Manager or their designated representative prior to any work being accomplished.

All equipment must conform to the EM385-1-1 Safety Manual.

Woody vegetation must be removed to ground level and the stumps treated to prevent any re-growth or sprouting. Removed vegetation can be disposed of at locations approved by the Lake Manager or their designated representative.

Prescribed Burning

Prescribed burning may be used by the lessee as a management tool.

Prior to any prescribed burns the lessee must submit to the Lake Manager or his authorized representative a burn plan. The burn plan must be approved by the District environmental coordinator and the Lake Manager or their designated representative. The required plan format is included as part of this lease agreement.

The lessee must obtain a Coffey County burn permit prior to any prescribed burns. The lessee must meet all Coffey County Sheriff Department and Coffey County Fire District rules, regulations, and requirements.

The Lake Manager or their designated representative must be notified by the lessee a minimum of 24 hours prior to any planned burns.

Underground Pressurized Pipelines

Specific to the gas pipeline right-of-way running through a portion of the lease area, no heavy equipment, vehicles, or trailers will be allowed to cross the right of way or operate on the right of way. Only hay harvest equipment shall be allowed on the right-of-way.

PRIVACY ACT STATEMENT

Purpose of Form: This information is mandatory under the Debt Collection Improvement Act of 1996, Public Law 104-134, April 26, 1996, 110 Stat 1321-358. The head of each Federal Agency must require each person doing business with that agency to furnish to that agency such person's taxpayer identification number. The agency intent is to use such number for purposes of collecting and reporting on any delinquent amounts arising out of such person's relationship with the Government. OMB Circular A-129, App. A, part V, and DOD Financial Regulation 7000.14-R, Vol. 4, chapter 3, states that any close-out of accounts receivable procedures will include reporting the close-out amount on IRS Form 1099-C. IRS Form 1099-C is an income form which requires a taxpayer identification number and means that the agency will report the uncollectible debt to IRS as income to the person who failed to pay the uncollectible debt owed to the agency under the outgrant. The 1099-C reports the uncollectible debt as income to the debtor, which may be taxable at the debtor's current tax rate. Failure to provide this information may result in your outgrant request being denied.

Without prior written approval of the Grantor, the Lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the District Engineer.

9. PROTECTION OF PROPERTY

The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefore by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

10. RENTAL ADJUSTMENT

In the event the United States revokes this lease or in any other manner materially reduces the leased area or materially affects its use by the Lessee prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this lease. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.
