

DEPARTMENT OF THE ARMY
UNITED STATES ARMY CORPS OF ENGINEERS, TULSA DISTRICT
1645 SOUTH 101 EAST AVENUE
TULSA OK 74128-4609

NOVEMBER 13, 2015

Operations Division
Natural Resources and Recreation Branch

TO INTERESTED PARTIES

The Tulsa District and Regional Planning and Environmental Center (RPEC) have revised the existing Fort Gibson Lake, Oklahoma Master Plan and have assessed the environmental impacts of this Master Plan revision. The Master Plan is the strategic land use management document that guides the comprehensive management and development of all project recreational, natural, and cultural resources throughout the life of the water resource project.

The Master Plan revision and Environmental Assessment (EA) were prepared in accordance with U.S. Army Corps of Engineers Regulation 1130-2-550, Project Operations - Recreation Operations and Maintenance Policies, and 33 Code of Federal Regulations, Part 230, Policy and Procedures for Implementing the National Environmental Policy Act, respectively. It has been determined from the referenced EA that adoption of the Master Plan revision will have no significant adverse impacts on the natural or human environment.

The Draft Master Plan and Draft Environmental Assessment are available on the Tulsa District web page for your review (<http://www.swt.usace.army.mil>). If you have comments they should be submitted by **December 22, 2015** to the U.S. Army Corps of Engineers, Tulsa District, ATTN: OD-NR (Fort Gibson Lake Master Plan Revision), 1645 South 101st East Avenue, Tulsa, Oklahoma 74128 or via email to Mr. Stephen Nolen at Stephen.L.Nolen@usace.army.mil.

Should you have any questions, I can be reached at 918.669.7660 or at the above email address. Thank you for your interest in Fort Gibson Lake.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen L. Nolen", with a long horizontal flourish extending to the right.

Stephen L. Nolen
Chief, Natural Resources
and Recreation Branch
