

DEPARTMENT OF THE ARMY
UNITED STATES ARMY CORPS OF ENGINEERS, TULSA DISTRICT
1645 SOUTH 101 EAST AVENUE
TULSA OK 74128-4609

JANUARY 29, 2016

Operations Division
Natural Resources and Recreation Branch

TO INTERESTED PARTIES

The Tulsa District and Regional Planning and Environmental Center (RPEC) have revised the existing John Redmond Dam and Reservoir, KS Master Plan and have assessed the environmental impacts of this Master Plan revision. The Master Plan is the strategic land use management document that guides the comprehensive management and development of all project recreational, natural, and cultural resources throughout the life of the water resource project.

The revised Master Plan and Environmental Assessment (EA) were prepared in accordance with U.S. Army Corps of Engineers Regulation 1130-2-550, Project Operations - Recreation Operations and Maintenance Policies, and 33 Code of Federal Regulations, Part 230, Policy and Procedures for Implementing the National Environmental Policy Act, respectively. It has been determined from the referenced EA that adoption of the Master Plan revision will have no significant adverse impacts on the natural or human environment.

The Draft Master Plan and Draft Environmental Assessment are available on the Tulsa District web page for your review (<http://www.swt.usace.army.mil>). If you have comments they should be submitted by **March 1, 2016** to the U.S. Army Corps of Engineers, Tulsa District, ATTN: OD-NR (John Redmond Master Plan Revision), 1645 South 101st East Avenue, Tulsa, Oklahoma 74128 or via email to Mr. Stephen Nolen at Stephen.L.Nolen@usace.army.mil.

Should you have any questions, I can be reached at 918.669.7660 or at the above email address. Thank you for your interest in John Redmond Dam and Reservoir.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen L. Nolen", with a long horizontal line extending to the right.

Stephen L. Nolen
Chief, Natural Resources
and Recreation Branch
