CLAMMING OPERATIONS COMPLETE POOL 16 NM 394.7

VERDIGRIS, RIVER

McCLELLAN-KERR ARKANSAS RIVER NAVIGATION SYSTEM, OKLAHOMA

Clamming operations performed in Pool 16 NM 394.7 to remove shoaling have been completed. The Channel has been restored to normal width of 250' with 9' depth at EL 490.00. Pool 16 will continue to be held at the top of normal pool until dredging can be accomplished. Higher than normal flows from the Arkansas River continue to move material around in this area. Mariners are advised to continue using caution while transiting NM394.7 to 394.8.

Waterway users are asked to check with Lock No. 17 for the latest information. Questions or request for additional information concerning this notice should be directed to Mr. Robert Steiner; Navigation Operations Manager: (918)-607 0952 or Mr. Vic Heister; Navigation Maintenance Engineer (918)-669-7244.
