Proposed Lower Bois d' Arc Reservoir

Fannin County, Texas

We have reviewed the information provided concerning the proposed Lower Bois d' Arc Reservoir in Fannin County, Texas, in correspondence dated May 2, 2011. This is part of the National Environmental Policy Act (NEPA) evaluation for the US Army Corps of Engineers. We have evaluated the proposed area as required by the Farmland Protection Policy Act (FPPA).

The proposed project does contain soils classified as Important Farmland. We have completed Parts II, IV, V and VI of the Farmland Conversion Impact Rating form (AD-1006) sent to us. The combined rating of the proposed site is 115. The FPPA states that sites with a rating less than 160 will need no further consideration for protection and thus are not subject to the FPPA. During the work on this project we would encourage you to use accepted erosion control methods.

We have attached the completed AD-1006 form. Thank you for the resource materials you submitted to help in our evaluation. If you have any questions please call Laurie Kiniry at (254) 742-9861, Fax (254)-742-9859.

Sincerely,

Laurie Kinity
Soil Scientist
