

attached example. (An exception to the clouding rule is if the entire sheet was revised. See paragraph below.) Clouding shall be removed prior to generation of solicitation drawings. All deltas and revision notes in the title block shall remain in place. NOTE: Issuing drawing changes by sketch is preferable - it's faster and cheaper. **Use this method whenever possible.**

4.3 Revised Drawings. When changes are extensive or complicated and issuing the changes by sketch(es) is not practical, the entire drawing shall be revised or reissued. Revisions shall be "clouded," and noted in the Revision Block on the drawing. The drawing revision shall be denoted by a 3/8" delta symbol [located by the change(s) and in the revision block] with the revision number within the delta. (An exception to the clouding rule is if the entire sheet was revised. Then it is permissible to omit the clouding and note in the Revision Block that "Entire sheet revised by Amendment 00XX." Include the delta in the revision block.) Clouding shall be removed prior to generation of solicitation drawings. All deltas and revision notes in the title block shall remain in place. Revised drawings require extra time for printing hard copies or reissuing a CD; coordinate this with the Government's Project Engineer AND the specifications writer. See the attached example of revision block notation.
