

REVISING THE 1976 SKIATOOK LAKE MASTER PLAN

Draft Master Plan Document Release
17 December 2025

U.S. Army Corps of Engineers, Tulsa District

U.S. ARMY

US Army Corps
of Engineers®

Purpose

- Announce the availability of the draft Skiatook Lake Master Plan revision and accompanying Environmental Assessment.
- Highlight changes proposed in the revised Master Plan compared to the previous 1976 version.
- The draft Master Plan with Environmental Assessment documents are available for 45-day public comment period beginning December 17, 2025, and closing on January 30, 2026.

Process Followed to Date

- Initial public open house was conducted on July 25, 2024.
- All comments were considered. See Appendix E of the draft Master Plan for comments and Government responses.
- A draft Environmental Assessment (EA) was prepared and is available in the Master Plan Appendix.

What Is A Master Plan?

- The purpose of a Master Plan is to establish guidelines for comprehensive management and development of all recreational, natural and cultural resources
- Main focus is stewardship of natural and cultural resources and provision of quality outdoor recreation facilities and opportunities
- Proposed effective life of a Master Plan is 25 years
- Recreational use of the water surface is addressed

What Master Plans Are Not

Master Plans **do not** address in detail the technical aspects of:

- Regional water quality
- Water management for flood risk management
- Water supply or water level management
- Shoreline management (including boat docks, mowing, or other permits)

Land Classification Definitions

Source: Engineering Pamphlet (EP) 1130-2-550

Land Classification	Definition
Project Operations	Lands required for the dam, spillway, levees, office, maintenance facilities and other areas that are used solely for project operations.
High Density Recreation	Land developed for intensive recreational activities for the visiting public, including day use areas and campground areas for commercial concessions, and quasi-public development.
Multiple Resource Management Lands	Low Density Recreation: Lands with minimal development or infrastructure that support passive public recreational use (e.g., trails, primitive camping, wildlife observation, fishing and hunting).
	Wildlife Management: Lands designated for the stewardship of fish and wildlife resources.
	Vegetative Management: Lands designated for the stewardship of forest, prairie, and other native vegetative cover.
	Inactive and/or Future Recreation Areas: Recreation areas planned for the future or that have been temporarily closed.
Environmentally Sensitive Areas	Areas where scientific, ecological, cultural or aesthetic features have been identified. These areas must be considered by management to ensure they are not adversely impacted.
Mitigation	Lands acquired or designated specifically for offsetting losses associated with development of the project. Lands allocated as separable mitigation lands can only be given this classification.

Water Surface Classifications

Source: Engineering Pamphlet (EP) 1130-2-550

Water Surface Classification	Definition
Open Recreation	Those waters available for year-round or seasonal water-based recreational use.
Restricted	Water areas restricted for project operations, safety, and security purposes.
Designated No-Wake	To protect environmentally sensitive shoreline areas, recreational water access areas from disturbance, and for public safety.
Fish and Wildlife Sanctuary	Annual or seasonal restrictions on areas to protect fish and wildlife species during periods of migration, resting, feeding, nesting, and/or spawning.

Proposed Changes in Land & Water Surface Classifications

Prior Land Classifications (1976)	Acres	Proposed Land Classifications (2025)	Acres
Project Operations (PO)	353	Project Operations (PO)	232
		Environmentally Sensitive Areas (ESA)	384
Operations Recreation – Intensive Use (OR/IU)	1,883	High Density Recreation (HDR)	1,147
Operations Recreation – Low Density (OR/LD)	2,895	Multiple Resource Management – Low Density Recreation (LDR)	2,801
Natural Area (NA)	3,569	Wildlife Management (WM)	4,172
TOTAL LAND ACRES	8,700	TOTAL LAND ACRES	8,736
Prior Water Surface Classifications (1975)	Acres	Proposed Water Surface Classifications (2025)	Acres
Water	10,383	Open Recreation (WS/OR)	10,154
		Restricted (WS/R)	34
		No Wake (WS/NW)	160
TOTAL WATER SURFACE ACRES	10,383	TOTAL WATER SURFACE ACRES	10,348
TOTAL FEE	19,083	TOTAL FEE	19,084

* Total Acreage differences from the 1976 total to the 2025 totals are due to improvements in measurement technology, deposition/siltation, and erosion. Totals also differ due to rounding while adding parcels.

Management Goals & Resource Objectives

- Goals and objectives were developed during the revision process specific to the following categories:
 - Recreation
 - Natural Resource Management
 - Visitor Information, Education, and Outreach
 - General Management
 - Cultural Resources Management
- A complete description of the revised goals and objectives can be found in Chapter 3 of the draft Master Plan revision.

National Environmental Policy Act

- The Master Plan Revision process includes compliance with the National Environmental Policy Act (NEPA) of 1969.
- Purpose of NEPA is to:
 - Ensure federal agencies give proper consideration to the environment prior to undertaking a federal action.
 - Involve the public (scoping) in the decision-making process.
 - Document the process by which agencies make informed decisions.
- NEPA Scoping Process:
 - Opportunity for public comments and questions on the potential impacts of proposed federal actions.
 - Includes comments by other federal, state, and local governments, and American Indian Tribal Nations.

NEPA Includes:

- Public exchange of information related to problems to be solved, issues to be addressed, and potential alternatives
- Identification and evaluation of a broad range of alternatives
- Identification and quantification of potential impacts
- Screening of non-relevant issues from analysis
- Documentation of analysis and coordination through preparation of NEPA documents, such as an Environmental Assessment (EA) or an Environmental Impact Statement (EIS)
- Federal, state, and public review of NEPA documents

NEPA RESOURCES

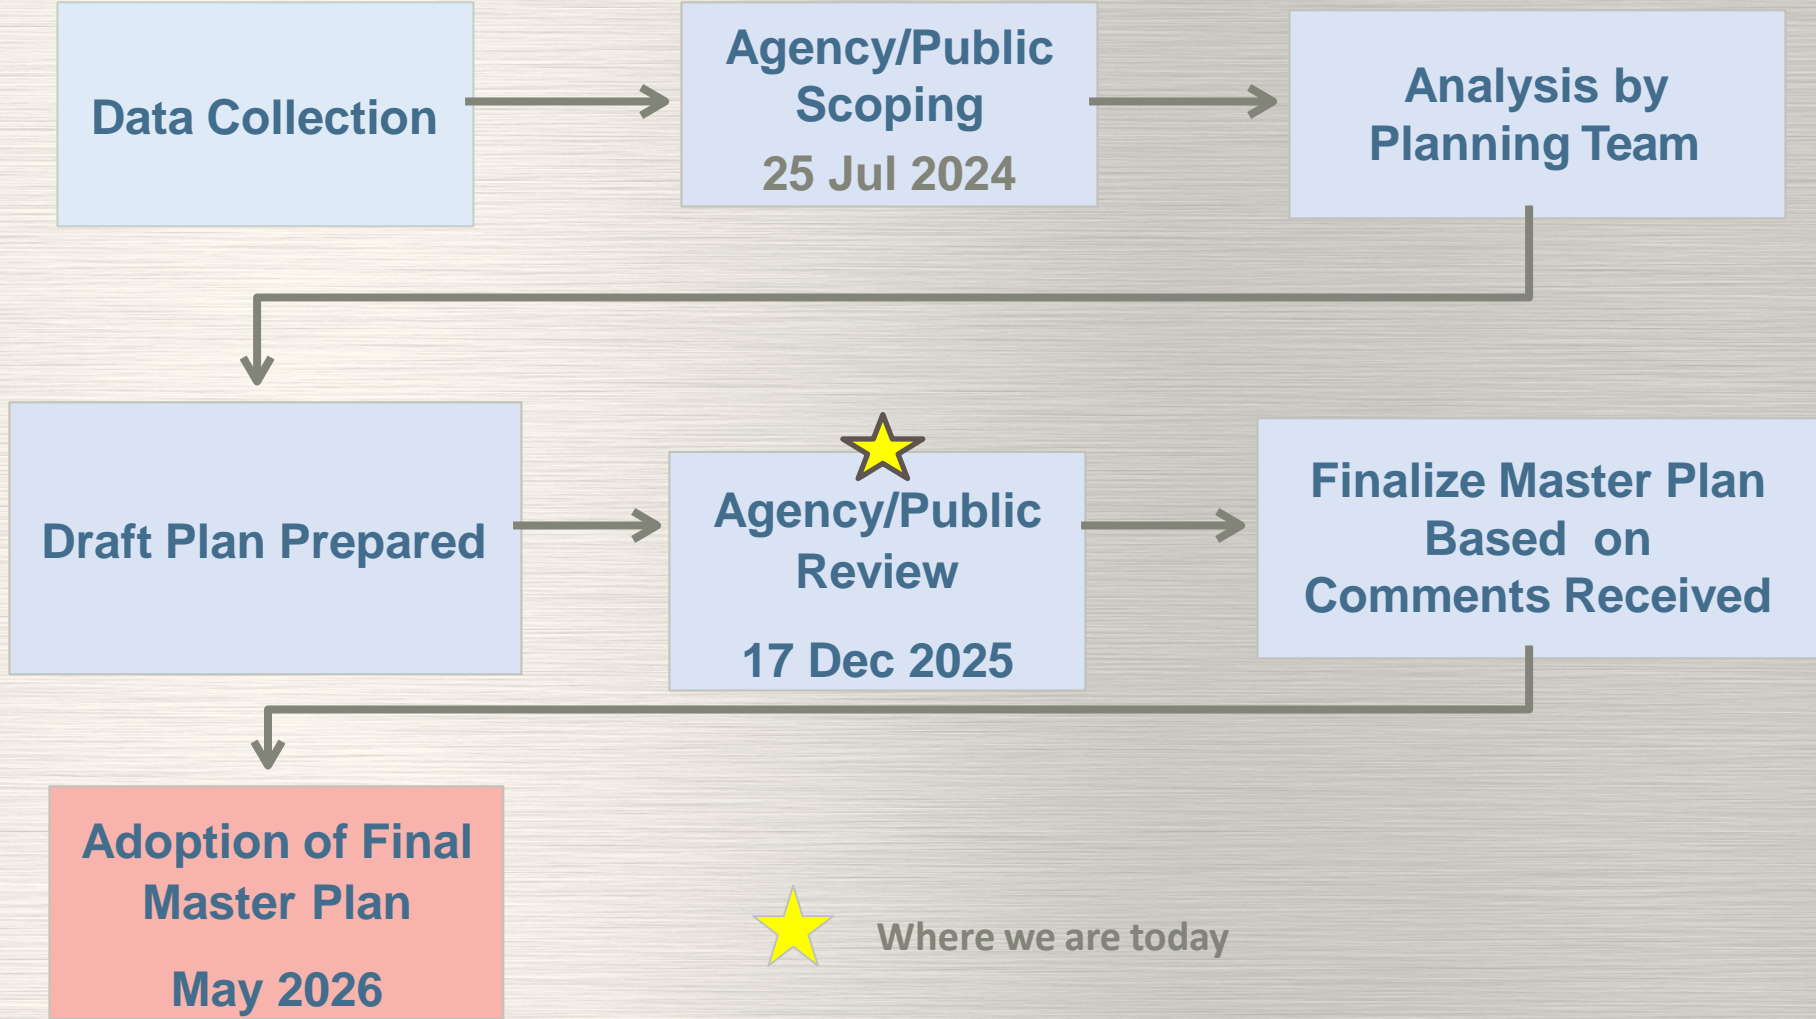

Available on NEPAnet: <http://www.NEPA.gov>

NEPAnet Includes:

- A Citizen's Guide to NEPA – Having Your Voice Heard
- Council on Environmental Quality Regulations for Implementing NEPA (40 CFR Parts 1500-1508)

Where we are today

How Can You Participate?

Review the below documents at website:

<https://www.swt.usace.army.mil/Missions/Recreation/Master-Plans/>

- Draft Master Plan Document Release PowerPoint
- Draft Skiatook Lake Master Plan
- Draft Skiatook Lake Land Classification Map
- Comment Form

Submit a comment with your input on the proposed Master Plan revision.

Skiatook Lake Master Plan Revision Comments

HOW TO SUBMIT YOUR COMMENTS:

- Send an email, letter or use the comment form available on the website and either mail or email to USACE. All three methods are acceptable.
- By mail: U.S. Army Corps of Engineers
Lake Manager
14004 Lake Rd
Skiatook, OK 74070
- By email: CESWT-OD-NS@usace.army.mil
