WELCOME

The U.S. Army Corps of Engineers invites you to visit Canton Lake, the key lake of a three-lake system authorized within the North Canadian River Basin consisting of Canton, Fort Supply and Optima Lakes.

This 7,900 acre lake offers extensive opportunity for outdoor recreational activities. Its gently sloping sandy beach is an open invitation for swimmers and sunbathers. Water skiing is popular on the broad expanse of water paralleling the dam where winds are subdued. The lake is famous for its walleye fishery and also provides excellent hunting and boating opportunities. For your enjoyment, campsites and picnic facilities are conveniently located at several parks around the lake. Services and supplies are available from businesses in the towns of Canton and Longdale which are only a couple of miles from the lake. The Overlook Cafe, is a commercial concession, located at the south end of Canton Dam.

Inquiries regarding Canton Lake and its uses are welcome. Our office is open Monday through Friday, 8:00 a.m. to 4:30 p.m. You may call us at (580) 886-2989.

Our mailing address is:

Canton Project Office
 HC 65, BOX 120
 CANTON, OK 73724

A nationwide reservation system is available for many federally managed facilities. Camping reservations can be made online at recreation.gov or by calling 1-877-444-6777.

To check out current lake level elevations or access the recreation page for Canton Lake visit the U.S. Army Corps of Engineers, Tulsa District website at www.swt.usace.army.mil.

Please help protect the environment by keeping areas clean. Avoid damaging trees and plants, extinguish all fires, and dispose of refuse properly. Have a safe, fun time and come again!
