MEMORANDUM FOR Chief, Operations Division, Tulsa District (CESWT-OD/Rex Ostrander),  
2488 East 81st Street, Tulsa, Oklahoma 74137

SUBJECT: Tulsa District, Operations Division, John Redmond Master Plan Five-Year Review

1. An Operations-led interdisciplinary team composed of project and district personnel, and appointed by district leadership, was assigned to conduct a five-year review of the John Redmond Master Plan.
2. The John Redmond Master Plan meets guidelines established in the 30 January 2013 ER 113-2-550 and 15 August 2002 EP 1130-2-550.
3. This review utilized master plan performance criteria as well as guidance in Chapter 3 of EP 1130-2-550 to determine if supplementation or revision is recommended.
4. Sections *1.4-Description of Project and Watershed* and *6.3-Removal of Sediment and Restoration of Water Storage* reference a sedimentation removal project (i.e., hydraulic dredging) led by the State of Kansas (Kansas Water Office) that was expected to begin shortly after the master plan revision was finalized in March 2016. This dredging project began in May 2016 and was completed in October 2016.
5. At the conclusion of this review, it was determined that the plan remains relevant, and no supplementation or revision is necessary. This memorandum serves as a record that the administrative review was completed.
6. For further questions, please contact Mr. Jeff Knack, Chief, Natural Resources and Recreation Branch, (918) 669-7660.

AMANDA PALMER  
Chief, Recreation Section  
Tulsa District
