Dear [REDACTED]:

Please reference your correspondence dated October 2, 2023, concerning a request for an Approved Jurisdictional Determination (AJD). The proposed project is located in Section 27, Township 26 North, Range 21 East, in Craig County, Oklahoma. The area marked in red on the enclosed map denotes the limits of the property examined under this request. We have reviewed the submitted data relative to Section 404 of the Clean Water Act (CWA).

We have examined the property and concluded that there are no waters of the U.S. located within the review area depicted on the enclosed map.

We believe this determination to be an accurate assessment of the presence of jurisdictional wetlands and other waters on the site which are subject to Section 404. This is a final determination of federal jurisdiction on the property pursuant to Section 404. This determination is valid for 5 years from the date of this letter unless new information warrants revision of the determination before the expiration date.

This delineation or determination has been conducted to identify the limits of the Corps CWA jurisdiction for the particular site identified in this request. This delineation or determination may not be valid for the wetland conservation provisions of the Food Security Act of 1985, as amended. If you or your tenant are USDA program participants, or anticipate participation in USDA programs, you should request a certified wetland determination from the local office of the Natural Resources Conservation Service prior to starting work.

This final determination constitutes an approved JD subject to the optional Corps Administrative Appeal Process. If you object to this determination, you may request an administrative appeal under Corps regulations at 33 CFR Part 331. Enclosed is a copy of the Notification of Administrative Appeal Op determination you must submit a completed RFA form to the Southwestern Division Office at the following address:
