Dear [REDACTED]:

Please reference your request for an approved jurisdictional determination for a 54 acre project site, located at latitude 35.92039, longitude -95.881976 in Tulsa County, Oklahoma. We have reviewed the submitted data relative to Section 404 of the Clean Water Act (CWA).

We have examined the project site; and, we have concluded that the project boundary (depicted on the enclosed map) does not encompass any jurisdictional waters of the United States. Therefore, a discharge of dredge and/or fill material within this project boundary is not subject to regulation pursuant to Section 404 of the CWA, and a Department of the Army (DA) permit would not be required. The basis for this determination is documented on the enclosed Memorandum for Record.

This final determination constitutes an approved jurisdictional determination subject to the optional Corps Administrative Appeal Process. If you object to this determination, you may request an administrative appeal under Corps regulations at 33 CFR Part 331. Enclosed is a copy of the "Notification of Administrative Appeal Options and Process and Request for Appeal (RFA)" form. If you request to appeal this determination you must submit a completed RFA form to the Southwestern Division Office at the following address:

[REDACTED]
Administrative Appeals Review Officer,
Southwestern Division (CESWD-PD-O)
U.S. Army Corps of Engineers
1100 Commerce Street, Suite 831
Dallas, Texas 75242-1317
Phone: [REDACTED]
Email: [REDACTED]

In order for a RFA form to be accepted by the Corps, the Corps must determine that it is complete, that it meets the criteria for appeal under 33 CFR Part 331.5, and that it has been received by the Division Office within 60 days of the date of the RFA form. Should you decide to submit a RFA form, it must be received at the above address by April 8, 2024. It is not necessary to submit a RFA form to the Division Office if you do not object to the determination in this letter.

We believe this determination to be an accurate assessment of the presence of jurisdictional wetlands and other waters on the site which are subject to Section 404 of the CWA. This is a final determination of federal jurisdiction on the property pursuant to Section 404 of the CWA. This determination is valid for 5 years from the date of this letter unless new information warrants revision of the determination before the expiration date.

This determination has been conducted to identify the limits of the Corps CWA jurisdiction for the particular site identified in this request. This determination may not be valid for the wetland conservation provisions of the Food Security Act of 1985, as amended. If you or your tenant are U.S. Department of Agriculture (USDA) program participants, or anticipate participation in USDA programs, you should request a certified wetland determination from the local office of the Natural Resources Conservation Service prior to starting work.

Your project has been assigned Identification Number SWT-2024-67. If you have any questions, please contact [REDACTED] at [REDACTED].

Sincerely,

[REDACTED]
Chief, Regulatory Office
