

## PUBLIC INVOLVEMENT PRESENTATION

#### U.S. Army Corps of Engineers Tulsa Worth District

# **Purpose of Presentation**

- Inform the public and stakeholders that a master plan revision has started
- Define a master plan
- Describe the master plan revision process
- Provide instructions on how to participate in the revision process
- Encourage participation
- Provide links to documents

The Corps defines a Master Plan as...

"The strategic land use management document that guides the comprehensive management and development of all project recreational, natural and cultural resources throughout the life of the water resource development project."

Source: Chapter 3 of EP 1130-2-550 available at www.usace.army.mil/library/publications

# What is a master plan?

- The master plan is a 25 year comprehensive land use management guide for recreational, natural, and cultural resources
- Adheres to Federal laws to preserve, conserve, restore, maintain, manage, and develop project lands, waters, and associated resources, including the National Environmental Policy Act (NEPA) for environmental stewardship and outdoor recreation
- Provides land classifications and resource management objectives that are broad and adaptive over time
- Requires and encourages public involvement

# Why do a revision?

- The current master plan is out of date and is no longer compliant with new regulations
- Substantial changes in environmental, cultural, social, and recreational conditions have occurred since the current master plan was approved
- Re-examine land classification due to these substantial changes
- The master plan provides long-term goals and consistent management objectives to guide balanced management of resources and public recreation

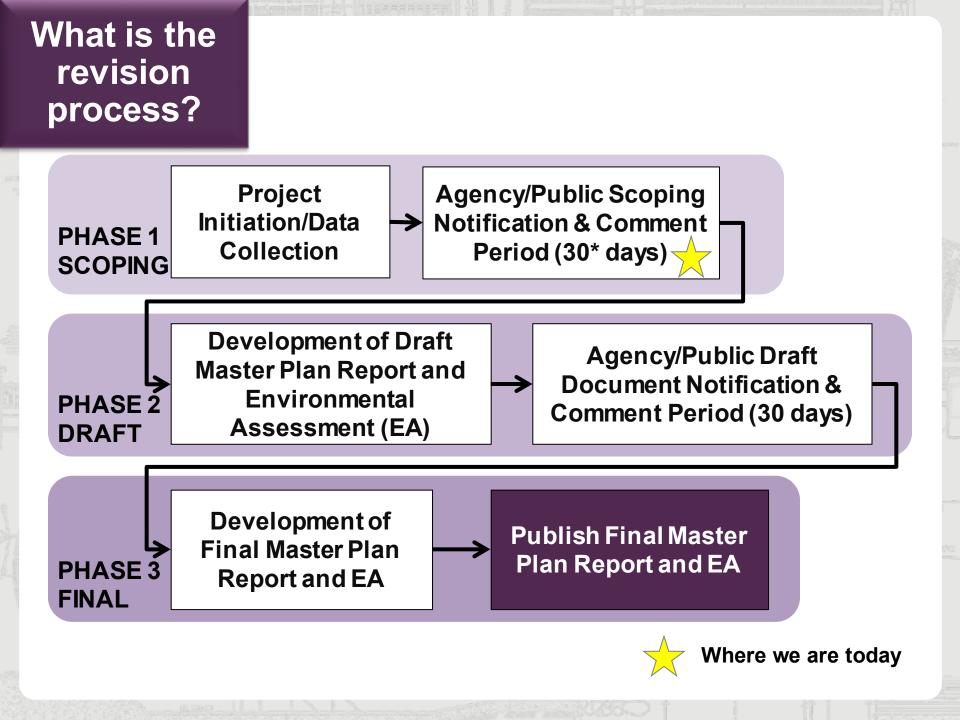

The process is a cover-to-cover **review and revision of the entire plan** and is accomplished by:

- A team of Corps employees including Operations, Real Estate, Master Planning, and Environmental Compliance subject matter experts
- Receive input from and collaboration with partners, neighbors, stakeholders, elected officials, resource agencies, and the public
- A thorough review and update of land and water surface classifications
- Developing appropriate **NEPA compliance** documents

# Land Classifications

Source: Engineering Pamphlet (EP) 1130-2-550

Land Classification	Definition	
Project Operations	Lands required for the dam, spillway, levees, office, maintenance facilities and other areas that are used solely for project operations.	
High Density Recreation	Land developed for intensive recreational activities for the visiting public, including day use areas and campground areas for commercial concessions, and quasi-public development.	
Multiple Resource Management Lands	<b>Low Density Recreation</b> : Lands with minimal development or infrastructure that support passive public recreational use (e.g., trails, primitive camping, wildlife observation, fishing and hunting).	
	Wildlife Management: Lands designated for the stewardship of fish and wildlife resources.	
	<b>Vegetative Management:</b> Lands designated for the stewardship of forest, prairie, and other native vegetative cover.	
	<b>Inactive and/or Future Recreation Areas:</b> Recreation areas planned for the future or that have been temporarily closed.	
Environmentally Sensitive Areas	Areas where scientific, ecological, cultural or aesthetic features have been identified. These areas must be considered by management to ensure they are not adversely impacted.	
Mitigation	Lands acquired or designated specifically for offsetting losses associated with development of the project. Lands allocated as separable mitigation lands can only be given this classification.	

# Water Surface Classifications

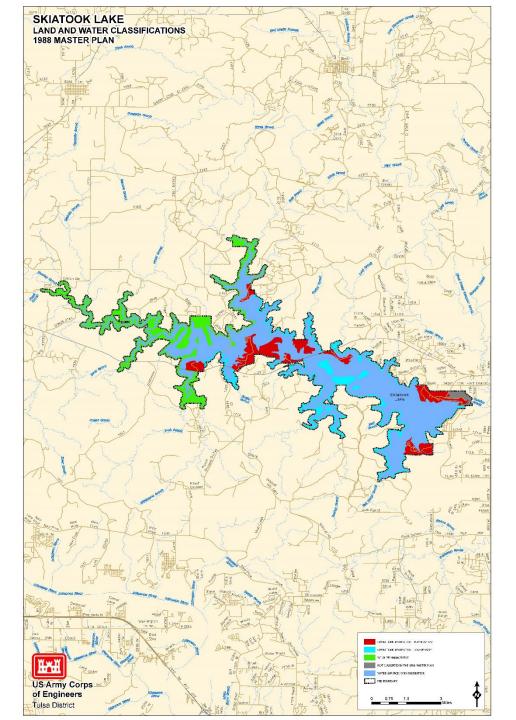

Source: Engineering Pamphlet (EP) 1130-2-550

Water Surface Classification	Definition	
Open Recreation	Those waters available for year-round or seasonal water-based recreational use.	
Restricted	Water areas restricted for project operations, safety, and security purposes.	
Designated No-Wake	To protect environmentally sensitive shoreline areas, recreational water access areas from disturbance, and for public safety.	
Fish and Wildlife Sanctuary	Annual or seasonal restrictions on areas to protect fish and wildlife species during periods of migration, resting, feeding, nesting, and/or spawning.	

Land Use Map from 1988 Master Plan

# NEPA Compliance

National Environmental Policy Act (NEPA)

#### Purpose of NEPA is to:

- Ensure federal agencies give proper consideration to the environment prior to undertaking a federal action
- Involve the Public (scoping) in the decision-making process
- Document the process by which agencies make informed decisions

#### NEPA Scoping Process:

- Opportunity for public comments and questions on the potential impacts of proposed federal actions
- Includes comments from other federal, state, and local governments, and Tribal Nations

## What is not part of a master plan?

- Facility design details
- Details of daily project administration
- Technical aspects of:
  - Water management for flood risk management
  - Regional water quality
  - Water supply
  - Shoreline management
  - Water level management
  - Hydropower
  - Navigation

What is changing in the plan?

At this point in the revision process there are no proposed changes

## The Corps is **requesting written comments for RECOMMENDED changes** to the existing master plan

**Possible Changes** to the Revised Mater Plan Could Include:

- Change Land and Water Classification
- Change Resource Goals and Objectives
- Create Utility Corridors

How can I participate?

## Submit written comments!

# **Review all documents** available on the USACE website:

https://www.swt.usace.army.mil/Missions/Recreation/Master-Plans/

### Documents available on the website include:

- -Project maps
- -Comment form
- -Presentation

**Spread the word** by telling your colleagues, friends and neighbors to participate

# How can I participate?

Comments will be accepted only **in writing**, some of the methods for submitting a comment include:

- You may download the comment form provided on the website, fill it out electronically, and email it to the Corps
- Or you may print the comment form provided on the website, fill it out by hand, and mail it to the Corps at the address on the comment form
- Or you may write a comment or send an email without using the comment form, and mail or email it to the Corps at the address provided on the website
- Comments are due by close of business on August 24, 2024

Who can I talk to about the plan?

> Talk to anyone from the USACE at the meeting to answer your questions.

- Call the Lake Office at: (918)396-3170
- Visit the Lake Office at: 14004 Lake Road

### Skiatook, Ok 74070

 Email us your questions at: <u>ceswt-od-ns@usace.army.mil</u>

When will the master plan be done?

- The master plan will take 18-24 months to complete
- Projected milestones/schedule

Milestones	Schedule
Public Notification for Scoping	25 July
Public Comment Period (30 days)	25 July– 24 August 2024
Draft Master Plan/EA Public Notification	October 2025*
Public Comment Period (30 days)	November 2025*
Final Master Plan/EAApproved	May 2026*

\* Projected

Thank you for viewing this presentation and participating in the master plan revision process at Kaw Lake.
